

Optimizing BTKi Patient Management with a **NEW** Digital Tool

Watch our pre-recorded session to explore how you can use this interactive tool to optimize BTKi patient management by identifying and assessing associated side effects.

Presenters:

(EN) Christine Peragine, PhD, PharmD, BScPhm, RPh
Pharmacist Lead, Oral Anticancer Medication Program, Sunnybrook Odette Cancer Centre

(FR) Dominic Duquette, B.Pharm, MSc
Pharmacien, Chercheur clinique—CRCHU, CEC—Université Laval

Learning Objectives

- Discover how the BTKi Patient Optimization Tool can enhance patient care
- Gain insights on how to leverage the tool to identify, assess, and manage common BTKi side effects
- See how the tool can fit into your clinical workflows

How to Access the Symposium

The pre-recorded symposium will be hosted on CAPHO's online platform for participants to view and to all ISOPP and CAPHO members six months later.
